The Professionals in Instrument Technology

Part of your business

As a WIKA certified service center, all distributor personnel are factory-trained and approved by WIKA.

Each WIKA certified center is authorized to perform the following services:

Seal Filling -

Full service center for filling diaphragm seals with a diverse selection of system fill fluids.

Calibration -

Certification on all ranges from 0-30" HG of vacuum, including inches of water, through 600 psi with certification of calibration provided.

Instrument Repair -

Full repair service and testing for all diaphragm seals and gauges, including capillary systems filled with customer specified fluids. Covering temperature ranges of -130°F to 570°F.

Inventory Stocking -

Complete inventory stocking of WIKA products, including gauges, seals, bimetal thermometers, transmitters, and accessories.
