## **Forberg Scientific, Inc. enters into a purchase agreement with M.W. Hott Company**

M.W. Hott Company led by Duane Lorenz, is a distributor of Instrumentation products including the Parker Instrumentation product line and other major instrumentation suppliers. In business for over forty years, M.W. Hott is dedicated in meeting total customer satisfaction.

On the acquisition, Forberg Scientific, Inc. President Carl Derian says, "This opportunity brings more value to our existing customers and offers current M.W. Hott customers more solutions."

For more than 45 years, Forberg Scientific (an ISO 9001:2008 company) has built a reputation in the Midwest for dependability, quality, experience and rapid delivery. Products from leading industry manufacturers include, instrument fittings and valves, pressure gauges and transmitters, gas detection, filtration, steam traps, pressure, flow, level, and temperature instrumentation.

Dedicated instrumentation specialists will be contacting you soon; however, please feel to contact Carl Derian or Justin Lorenz if you need immediate assistance.

Current customers and suppliers will be contacted shortly with details and answers to frequently asked questions.

Duane Lorenz and family truly appreciates the business relationships they've made over the several years in business, and the new Forberg team looks forward to carrying on the level of service they've provided.
